DEVOTED TO MAKING ADA A LARGER AND MORE PROGRESSIVE CITY

VOLUME 3

ADA, INDIAN TERRITORY, SATURDAY EVENING, AUGUST 11, 1906

NUMBER 121

OODLES OF WATER WILL BE FURNISHED FOR ADA

As was stated in Friday's News, quite a large party, composed of local business men and cement people, went out east a mile and a quarter and investigated the matter of building a reservoir. Every man in the party is elated over the prospects offered by this site. The topography at this place could hardly be more favorable to the project. Mr. Geo. Truitt stated to a News reporter today: "Nature has paved the way. At a point due east of the south half of Ada, just 1 1/4 miles, a dam 700 feet long can be built

that will insure a basin of water covering nearly 40 acres and averaging in depth between 12 and 17 feet. There is a solid rock base on which to build the dam. A section of the dam 30 feet high, 30 feet wide at the base and 125 feet long in front of the main channel would serve as an ample wasteway and would also resist the greatest volume of water. The remainder of the dam, 575 feet, could be built of Rock and earth, which is available in inexhaustible quantities right on the spot. "The water supply would be guar-

anteed by three large riverlets coming in from watersheds several thousand acres in extent."

"Where is this site?"

"It is on the Grayson allotment, one of our most reputable and prominent Indian citizens. The title can be easily secured at a nominal cost, for the land is not tillable."

A committee of business men, together with the cement people, was out on Sandy today in search of a better proposition at the hands of old Nature. The adventure is a mammoth

one and no mistake will be made in the selection of a water site. Every imaginable and likely water supply scheme will be given a thorough test.

By Monday a definite understanding will be reached relative to the action to be followed by the citizens and the municipality. The general opinion is that the council will take the matter up and back it with city bonds.

The cement people mean business. The citizens of Ada mean business, too. We pray that there will be no opposition, not even from those who make it a business to knock.

FIGHTING BILL BRYAN SAYS HE WILL FIGHT IN ILLINOIS

St. Louis, Aug. 10.—Homer Bassford, staff correspondent of the St. Louis Republic, cables his paper from Paris tonight as follows:

William J. Bryan has thrown down the gauntlet to the opposition in Illinois and says he will hurry home to fight Democracy's battle and that he may be depended upon to enter quickly into the contest in Illinois with all the energy with which he is possessed.

"It is immaterial to me whether Illinois indorses me or not," said Mr. Bryan yesterday, "but it is very important that the Democracy of that state shall repudiate Sullivan and highway-men methods."

"The Democracy of Illinois cannot hope to have the confidence of the people while men like Hopkins and Sullivan are in control of the organization."

"The party must, first of all, purge itself of such leadership before it can enter courageously upon a campaign."

"This was Mr. Bryan's ultimatum delivered last night just as I was leaving him to come to Paris. Mr. and Mrs. Bryan and their party are expected to arrive here tonight. They stopped for a day's rest in Lombard Castle, Switzerland, prior to taking up the last ten days of their long trip."

Mr. Bryan was very angry and said that the Democracy of the country should this year make its fight against leadership dominated by monopolistic influences or it will have the same fight to make over again during the presidential campaign. He says he will personally fight along these lines even though he is not considered for the presidency and will devote all his energies toward the success of such a campaign.

Trains Running.

The first through train on the Frisco since the big rain Tuesday night was the "Meteor" this morning. It was crowded with passengers.

M. L. Walsh will furnish you with the White Swan brand. Phone 17.

95-tf

Hearst Makes Fight.

Chicago, Aug. 10.—William Randolph Hearst, through his papers here, today declared savage war upon the Democratic ticket, and announces that the candidates are owned body and soul and breeches by National Committeeman Roger C. Sullivan and William Loeffler. The candidates are referred to as "creatures born of the infamy of gas and tunnel" politics.

This action means a third ticket in the field and the defeat of the Democratic party at the polls in November. After the Hearst faction abided by the decision of the convention yesterday and made no effort to bolt, the Sullivan-Loeffler politicians thought all was serene in the county Democratic ranks, but they have changed their minds today and realize now that whatever hopes they entertained for victory in November are shattered unless peace can be patched up in some manner.

But the Hearst followers declare they will entertain no overtures toward peace and will fight to the bitter end.

Remember the Hour: 9:30 O'clock.

Tomorrow is the last day of the big revival. In order to give all the time possible to the meeting and not to rush through their lessons the Sabbath schools of the city will begin promptly at 9:30. The Union meeting will begin promptly at 10:30. Let everybody be prompt.

Notice, Ladies.

The committee on program and arrangements for the big Democratic Rally of the county Monday instruct that the Ladies have an especial invitation to attend. Comfortable seats will be provided.

Otis B. Weaver, Sec.

Hot weather saps the vital energy and makes the hardest workers feel lazy. To maintain strength and energy use Prickly Ash Bitters.

Bob Taylor, of Tennessee, will lecture in the tabernacle Tuesday night.

THE CITY COUNCIL MET ON WEDNESDAY NIGHT

The city council met on the evening of the 8th inst. Those present were Timberlake, Warren, Barton, McFarland, Nettles, Lee, Bills, Sugg and Ebeys.

A motion prevailed that the M., K. & T. R. R. be allowed to use the city water at 10 cents per thousand gallons.

It was unanimously agreed that resolutions be presented to the proper Katy officials praying the construction of a crossing on their road at 9th street.

There were several non-important matters considered.

Bills to the following amounts were allowed: Street fund, \$144.40; general fund, \$335.94; water fund, \$63.82; pound fund, \$24.

A Compliment.

The Western x Ray and Coil Co. wrote Dr. Browall this: "I am in receipt of your valued favor of the 5th inst. and also acknowledge receipt of the Souvenir which I am frank enough to say is the most elaborate affair of its kind for a town any-where near the size of Ada, and you might well be proud of it." Thanks awfully.

The End of the World

of troubles that robbed E. H. Wolfe, of Bear Grove, Iowa, of all usefulness came when he began taking Electric Bitters. He writes: "Two years ago kidney trouble caused me great suffering, which I never would have survived had I not taken Electric Bitters. They also cured me of general debility." Sure cure for all stomach, liver and kidney complaints, blood diseases, headache, dizziness and weakness or bodily decline. Price 50 cents. Guaranteed by G. M. Ramsey's and F. Z. Hooley's drug store.

Found Dead on the Streets

A young man was found dead on the streets of Baton Rouge, supposed to have died from a congestive chill, which could have been prevented by the timely use of Dr. Mendenhall's Chill and Fever Cure. Sold by G. M. Ramsey, druggist.

"Be Ye Reconciled."

The few people at the service Monday night, on account of the storm, did not mar the message in the least. Bro. Oliver took his text from II Cor., 12th verse. The subject was "Reconciliation." He said that a reconciliation between man and God can be effected at any time by man putting away his rebellious armor. Bro. Oliver asked about the spirit that prevailed in the homes. He deplored the fact that there were so many homes in Ada without Christianity. Mr. Oliver said there were too many icy hands being extended to the new converts and lost souls. "Stick out warm hands to the unsaved ones and say, 'Be ye reconciled to God.' Character is essential to Christianity. Men of character are the ones closest to God. Let me die the death of the pauper with character rather than the richest man without character and lost. I beseech ye to lay down your rebellious armor and be reconciled to God." Mr. Oliver, addressing his remarks to the Christians, said that they were all cables from heaven. "Spread ye, therefore, the glad news, even unto the remotest parts of the earth, that a Savior has died that men may become reconciled to God. There is generous pardon for all sinners tonight. Will you put your name to it?"

University Support.

The University is supported out of the general revenues of the territory. The Legislature of 1905 set apart the sum of \$50,000 a year for two years to provide a general maintenance fund for the University. In addition to this, section 13 in each township in what is known as the Cherokee Outlet, and in the Kiowa, Comanche and Wichita country opened to settlement in 1901, has been reserved for university, normal school and agricultural purposes. The lands so reserved bring to the University at present about \$9,000 a year.

Walsh handles the White Swan brand goods. Phone 17.

A GOOD DOCTOR

is a broad minded man, and one who has the interest of his patients at heart and does all in his power to care for his patient. The best doctors' skill and ability is of little consequence if his prescriptions are filled by incompetent druggists and with impure drugs. Our prescription department is the largest and most complete of any in the city and is composed of the purest drugs and chemicals and compounded by experienced druggists. Consequently the best results are obtained. We can fill any prescription written by any physician in the city. You do not need to take them elsewhere because they are written on other druggists' stationery.

G. M. RAMSEY, Druggist.

OVERDRAFTS

It is becoming well known by business men that overdrafts, whether large or small, are not approved by the comptroller of the currency. The large central banks allow overdrafts only in a very small amount, and this, it matters not how small, is not approved by the comptroller. This unbusinesslike habit of overdrafts grew out of advancing on moving products, such as cotton, grain and fat stock, and the more. The overdraft system is wrong and the man who has an account is always overdrawn is the man who spends more money than he makes and will finally have no bank account.

RUN THEM OUT.

We can't hold our peace any longer. There should be, there must be some cleaning up in this town. We mean that besides other evident evils that are apparent in this town, there is one in particular that is an abomination to Sodom and Gomorrah: namely the running loose and promiscuously about the streets, of dirty, disreputable outcasts.

In the main these are negro wenches. These characterless daughters of dusky Ham are a menace, a reproach to a decent and civilized community. They are the cause of a score of trifling negro bucks lounging around the town doing nothing and who perhaps exist by reason of the work of thriving hands. They are the cause of some low-down, pusillanimous white men acting worse than dogs. They will be the cause of innocent boys of the town wrecking their characters and practicing that which will wreck and ruin.

They are here. Nobody will dispute it. Ada has no use for them. Guthrie, Indianapolis or hell might be willing to put up with such "beasties", but Ada, never! They can be gotten rid of. Now why not? If the officers and the law can't save the town from such stinking cussedness, let the decent citizenship of the town put the stamp of condemnation on such rottenness and let the great common law of decency have sway.

GET READY FOR THE RALLY!

Remember, citizens of Ada, our town has not given a picnic, street fair, or anything of the kind, this summer, with the exception of a statehood celebration which was rather of a local nature. Some such entertainment of neighbors is expected of any town, indeed is proper. They've been giving blow-outs all around us, and Ada hasn't given anything.

Now, let us make the Democratic rally next Monday such a big thing as to fully compensate for the shortcomings of the summer. Early Monday morning decorate your windows and awnings. Later get out and mingle with the folks, shake everybody's hand you see and SMILE—even unto the midnight hour. There will be distinguished visitors here from all over the new state; there will be an immense attendance from all over the Sixteenth district—altogether, doubtless the biggest crowd Ada has had this year. It's your duty as a good citizen to make every visitor glad he came.

GOOD ROADS.

The citizens of Ada are urged to meet the farmers at the tabernacle Monday morning to do road business. The roads must be improved and bridges have to be built and repaired. In the justifiable mad rush for water the Ada business citizens will not forget the farmers. Let all the citizens meet at the tabernacle Monday morning for business.

A dam! A dam!! is the cry.

"ME no likey heap mean republican." Poor Lo.

C. C. Threadgill and family of Goldfield, Nebraska came in today. They will visit Mr. Threadgill's brother at Center.

The Democrats will be here Monday. Give them the glad hand, for when you treat a stranger good you are building your town.

There is Democracy in the atmosphere. The rally Monday night and Bob Taylor, the Tennessee Democratic wheel-horse, Tuesday night.

The Republicans, of this the 4th Congressional District, are anxious to nominate an Indian for Congress. A pretty clever trick if such a thing as a republican Indian can be found.

CHAPMAN
The Shoe Man.

PUSH--DON'T KNOCK.

Upon the door I saw a sign:
I cried, "A motto! And it's mine!"
A wiser thing I never saw—
No Median or Persian law
Should be more rigidly enforced
Than this, from verbiage divorced;
Its logic's firm as any rock—
"Push--don't knock!"

'Twas simply meant to guide the hand
Of those who wished to sit or stand,
Within the unassuming door
This weight of sermon that bore.

'Twas never meant to teach or preach,
But just to place in easy reach
The ear of him who dealt in stock—
"Push--don't knock!"

But what a guide for life was that—
Strong, philosophical and pat;
How safe a craft for you and me
While cruising on life's restless sea;
Push, always push, with goal in view;
Don't knock--avoid the hammer crew,
This rule will save you many a shock—
"Push--don't knock!"

When on that door I see the sign,
I say, "Great motto, you are mine!"
No stronger sermon ever fell
From human lips; no sage could tell
The hothead youth more nearly how
To point away his vessel's prow;
There are no wiser words in stock—
"Push--don't knock!"

—Fraternal News.

This quill pusher has heard Bob Taylor who is to lecture here Tuesday night, and he advises everybody in Ada to hear him. Your tickle box will be heaped up.

A NATURAL water basin has been discovered one and a half miles east of town. A dam that will hold in check millions of gallons of water, about 40 acres in fact, can be built at a small cost. Get busy, people, let's begin to sling dirt.

Exports from Gulf Ports.

The growing importance of the gulf ports for the shipment of western produce is gathered from a statement recently issued by the department of commerce. For the 10 months ending with April Galveston, New Orleans and Mobile exported \$30,000,000 worth of breadstuffs, against \$33,000,000 worth for all the Chesapeake ports, including Baltimore, and \$37,000,000 worth for New York. New York's lead is readily accounted for by the advantage it has in the cheap water route through the lakes and the Erie canal, which also give her not a little wheat from the Canadian fields. With a deep waterway from Chicago to the mouth of the Mississippi New Orleans, which contributes \$16,500,000 to the above total of \$30,000,000 for the three gulf ports, would in all likelihood excel New York in the shipments of breadstuffs and other western produce.

GERMAN GIRLS' SCHOOLING

No Colleges for Them in Their Own Country, But They Have a "Pension."

The German girl leaves school at about 15 years of age, by which time she has learned to sew, mend, and supposedly to speak English and French. She has not learned higher mathematics, says Modern Women, but she has learned the small things which fit a girl for a housewife or companion, and that, in Germany, is woman's only sphere.

However much we American girls may enjoy our colleges we dare not pity the German girls, for they have something which takes their place and of which we can have no conception until we reside in Germany a few months.

Did you ever hear of a pension? It is one of the most enjoyable things which exists. Certain influential ladies, mostly widows or maiden aunts, make known that they are willing to take a limited number of young ladies into their family.

We went to Hanover, two of us girls, with a horror and dread of a boarding school, as we heard a pension described. We found ourselves in a family of eight girls, all from the very best class of Germans, and all placed under Frau von H—'s care for a year or more.

None of the girls had any special object in life; a few wanted to learn how to keep house, a few indulged in an hour's music lesson per week, but most of them came, as is the German custom, for the sake of becoming polished, and being escorted to concerts, theaters, balls, receptions, student Kneipes, etc., opportunities not afforded in smaller cities, and even not in many cities that are larger than Hanover.

Consequently our chaperon accepted invitations for her girls, parties were given and the great intimate family spent a year full of pleasure.

HORSE AND HORSELESS.

The Animal and the Auto Each Do the Other an Occasional Good Turn.

A farmer in Cadiz, Ind., recently jacked up his automobile to serve in lieu of a broken engine in the shelling of corn and cutting of fodder for his live stock and horses. The latter partook of their share of the feed without showing any hard feeling toward their deadly rival, the auto.

One man who has been touring the country says that the horses have accepted the automobile more gracefully than the farmers have.

He tells the story of an automobilist who met an elderly couple driving a skittish horse which decidedly objected to passing the unknown vehicle. The driver of the car stopped to offer his aid, but the man declined it with the remark:

"If you'll lead my old woman by, I guess she'll follow and I can make it all right."

Another horse and horseless yarn comes from a man in Oregon. He says:

"When I bought my car, I marveled that the company could sell it for \$1,550. Now I marvel that they could sell it at any price. Marvelling is the cheapest part of the proposition, I find."

"My particular marvel out in my barn reminds me of the man who built so much stone fence in one day that it took him two days to walk back to where he began. My car will take me—sometimes—so far from home in two hours that it takes the rest of the day for me to drive home with a providentially hired horse."

FACTS ABOUT SAFETY PIN.

Obliging Clerk Imparts Interesting Information Concerning the Article.

"One dozen safety pins. Twelve cents. Thank you, madam," said the clerk. "Your change will be here in one moment."

She was very pretty. He was young. A conversation sprang up.

"There is a strange story connected with the safety pin," the clerk said. "An Englishman invented this pin some 30 or 40 years ago. For this admirable invention he was highly honored. Fetes and applause were showered upon him. If I am not mistaken, the man was even knighted."

"And about three years ago, in excavating in Pompeii, they came upon—what do you think? A perfect safety pin. Hundreds of perfect bronze safety pins. The Englishman's invention wasn't new at all. It was 2,000 years old."

"The man had been feted and honored all his life, he had even been knighted, for an invention that he didn't invent."

MIKADO'S SELF DENIAL.

Refused Heat in Palace While His Soldiers Were Freezing in the Field.

In the bitter cold of last winter—1904-1905—the mikado not content with the fullest official reports, sent his grand master to look into the conditions at the front, to ascertain by visiting every camp and outpost, how the soldiers were faring. When Count Hikata returned with his harrowing tale of frightful suffering caused by the cold, the emperor was broken-hearted, says World's Work. Nothing more could be done—the Manchurian winter must drag its icy season through—but the emperor would not take his ease while his men were freezing, and the order to discontinue all heating of the palace till the war should be over showed that his sympathy was with them day by day.

16th District's Big DEMOCRATIC RALLY!

The Democracy of the 16th District will rally in Ada

MONDAY, AUGUST 13

The leading orators and United States Senatorial candidates from Oklahoma will address the throng. Hon. Jack Beal of Dallas, Texas, the brilliant Texas Congressman, will be present. A large number of State and Congressional candidates will be the District's guests that day, and will be proud to meet the people. The Democrats of Ada will give a barbecue supper to all the visitors. Between the shoutings and oratory and the feasting there will be music by two of the leading brass bands of the Indian Territory.

The splendid tabernacle constructed by the citizens of Ada, where the exercises will occur, has comfortable seating capacity of nearly 3,000 people.

Monday will be the real opening of the county campaign. Scores upon scores of candidates and prospective candidates for county offices will be on hand, and vigilant. The presence of the Democracy of the 16th district is demanded.

All the Democrats and other good citizens who are seeking after the political truth, or who attach some value to the reliable news capacity of a paper are cordially invited, when in town, to visit the Ada Daily and Weekly News office and plant, situated on the corner of 12th and Broadway, just across from the big tabernacle.

DO NOT FAIL TO ATTEND

DEVOTED TO MAKING ADA A LARGER AND MORE PROGRESSIVE CITY

VOLUME 3

ADA, INDIAN TERRITORY, SATURDAY EVENING, AUGUST 11, 1906

NUMBER 121

OODLES OF WATER WILL BE FURNISHED FOR ADA

As was stated in Friday's News, quite a large party, composed of local business men and cement people, went out east a mile and a quarter and investigated the matter of building a reservoir. Every man in the party is elated over the prospects offered by this site. The topography at this place could hardly be more favorable to the project. Mr. Geo. Truitt stated to a News reporter today: "Nature has paved the way. At a point due east of the south half of Ada, just 1 1/4 miles, a dam 700 feet long can be built

that will insure a basin of water covering nearly 40 acres and averaging in depth between 12 and 17 feet. There is a solid rock base on which to build the dam. A section of the dam 30 feet high, 30 feet wide at the base and 125 feet long in front of the main channel would serve as an ample wasteway and would also resist the greatest volume of water. The remainder of the dam, 575 feet, could be built of Rock and earth, which is available in inexhaustible quantities right on the spot. "The water supply would be guaranteed by three large riverlets coming in from watersheds several thousand acres in extent."

"Where is this site?" "It is on the Grayson allotment, one of our most reputable and prominent Indian citizens. The title can be easily secured at a nominal cost, for the land is not tillable."

A committee of business men, together with the cement people, was out on Sunday today in search of a better proposition at the hands of old Nature. The adventure is a mammoth one and no mistake will be made in the selection of a water site. Every imaginable and likely water supply scheme will be given a thorough test. By Monday a definite understanding will be reached relative to the action to be followed by the citizens and the municipality. The general opinion is that the council will take the matter up and back it with city bonds. The cement people mean business. The citizens of Ada mean business, too. We pray that there will be no opposition, not even from those who make it a business to knock.

FIGHTING BILL BRYAN SAYS HE WILL FIGHT IN ILLINOIS

St. Louis, Aug. 10. — Homer Bassford, staff correspondent of the St. Louis Republic, cables his paper from Paris tonight as follows:

William J. Bryan has thrown down the gauntlet to the opposition in Illinois and says he will hurry home to fight Democracy's battle and that he may be depended upon to enter quietly into the contest in Illinois with all the energy with which he is possessed.

"It is immaterial to me whether Illinois indorses me or not," said Mr. Bryan yesterday, "but it is very important that the Democracy of that state shall repudiate Sullivan and highway-men methods."

"The Democracy of Illinois cannot hope to have the confidence of the people while men like Hopkins and Sullivan are in control of the organization. The party must, first of all, purge itself of such leadership before it can enter courageously upon a campaign."

"This was Mr. Bryan's ultimatum delivered last night just as I was leaving him to come to Paris. Mr. and Mrs. Bryan and their party are expected to arrive here tonight. They stopped for a day's rest in Larnard Castle, Switzerland prior to taking up the last ten days of their long trip."

Mr. Bryan was very angry and said that the Democracy of the country should this year make its fight against leadership dominated by monopolistic influences or it will have the same fight to make over again during the presidential campaign. He says he will personally fight along these lines even though he is not considered for the presidency and will devote all his energies toward the success of such a campaign.

Trains Running.

The first through train on the Frisco since the big rain Tuesday night was the "Meteor" this morning. It was crowded with passengers.

M. L. Walsh will speak at the White Swan building. Phone 17.

Hearst Makes Fight.

Chicago, Aug. 10. William Randolph Hearst, through his papers here, today declared savage war upon the Democratic ticket, and announced that the candidates are owned by gold and greed by National Committee-man Roger C. Sullivan and William Loeffler. The candidates are referred to as "creatures born of the infancy of gas and tunnel" politics.

"This action means a third ticket in the field, and the defeat of the Democratic party at the polls in November. After the Hearst faction abided by the decision of the convention yesterday and made no effort to bolt, the Sullivan-Loeffler politicians thought all was serene in the county Democratic ranks, but they have changed their minds today and realize now that whatever hopes they entertained for victory in November are shattered unless peace can be patched up in some manner."

But the Hearst followers declare they will entertain no overtures toward peace and will fight to the bitter end.

Remember the Hour; 9:30 O'clock.

Tomorrow is the last day of the revival. In order to give all the time possible to the meeting and not to rush through their lessons, the Sabbath schools of the city will begin promptly at 9:30. The Union meeting will begin promptly at 10:30. Let everybody be prompt.

Notice, Ladies.

The committee on program and arrangements for the big Democratic Rally of the county Monday instruct that the Ladies have an especial invitation to attend. Comfortable seats will be provided.

Otis B. Weaver, Sec.

Hot weather saps the vital energy and makes the hardest workers feel lazy. To maintain strength and energy use Prickly Ash Bitters.

Bob Taylor, of Tonnessee, will lecture in the tabernacle Tuesday night.

THE CITY COUNCIL MET ON WEDNESDAY NIGHT

The city council met on the evening of the 8th inst. Those present were Timberlake, Warren, Barton, McFarland, Nettles, Lee, Bills, Sugg and Ebey. A motion prevailed that the M. K. & T. R. R. be allowed to use the city water at 10 cents per thousand gallons. It was unanimously agreed that resolutions be presented to the proper Katy officials praying the construction of a crossing on each end of 9th street.

There were several non important matters considered. Bills to the following amounts were allowed: Street fund \$141.40, general fund, \$335.94, water fund, \$63.82, pound fund, \$21.

A Compliment.

The Western X-Ray and Coal Co. wrote Dr. Brown this: "I am in receipt of your valued favor of the 5th inst and also acknowledge receipt of the Souvenir which I am proud enough to say is the most elaborate affair of its kind for a town anywhere near the size of Ada and you might well be proud of it." Thanks, warmly.

The End of the World

of troubles that troubled E. H. Wolff, of Beale Grove, Iowa, of all useful sciences, when he began taking electric lectures. He writes: "Two years ago I had a terrible case of general suffering, which I never would have survived had I not taken Electric lectures. They also cured me of general debility. I am sure cure for all stomach, liver and kidney complaints, blood diseases, headache, dizziness and weakness of body. I decline. Price 50 cents. Guaranteed by G. M. Ramsey and F. Z. Hays, druggists."

Found Dead on the Streets

A young man was found dead on the streets of Butte Rouge, apparently having died from a congested chest, which could have been prevented by the timely use of Dr. Mendenhall's Cough and Fever Cure. Sold by G. M. Ramsey, druggist.

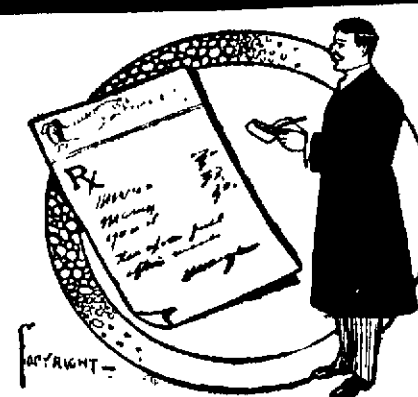

"Be Ye Reconciled."

The few people at the service Monday night, on account of the storm, did not mar the message in the least. Bro. Oliver took his text from II Cor., 12th verse. The subject was "Reconciliation." He said that a reconciliation between man and God can be effected at any time by man putting away his rebellious armor. Bro. Oliver asked about the spirit that prevailed in the homes. He deplored the fact that there were so many homes in Ada without Christianity. Mr. Oliver said there were too many icy hands being extended to the new converts and lost souls. "Stick out warm hands to the unsaved ones and say, 'Be ye reconciled to God.' Character is essential to Christianity. Men of character are the ones closest to God. Let me die the death of the pauper with character rather than the richest man without character and lost. I beseech ye to lay down your rebellious armor and be reconciled to God." Mr. Oliver, addressing his remarks to the Christians, said that they were all cables from heaven. Spread ye, therefore, the glad news, even unto the remotest parts of the earth, that a Savior has died that men may become reconciled to God. There is generous pardon for all sinners tonight. Will you put your name to it?

University Support.

The University is supported out of the territory. The Legislature of 1905 set apart the sum of \$50,000 a year for two years to provide a general maintenance fund for the University. In addition to this, section 3 in each township in what is known as the Cherokee Outlet, and in the Kiowa, Comanche and Wichita counties, was set apart in 1901, has been reserved for university, normal school and agricultural purposes. The land so reserved bring to the University at or sent about \$9,000 a year.

White Swans the White Swan can be seen at the White Swan building. Phone 17.

A GOOD DOCTOR

is a broad minded man, and one who has the interest of his patient at heart and does all in his power to care for his patient. The best doctors skill and ability is of little consequence if his prescriptions are filled by incompetent druggists and with inferior drugs. Our and most complete of any in the city and is composed of the purest drugs and chemicals and compounded by experienced druggists. Consequently the best results are obtained. We can fill any prescription written by any physician in the city. You do not need to take them elsewhere because they are written on other druggists' stationery. G. M. RAMSEY, Druggist. (Successor to Clark Drug Co.)

OVERDRAFT

It is becoming well known by business men that overdrafts, whether large or small, are not approved by the comptroller of the currency. The large central banks allow overdrafts only in a very small amount, and this, it matters not how small, is not approved by the comptroller. This unbusinesslike habit of overdrafts grows out of advancing on moving products, such as cotton, grain and fat stock. The overdraft system is wrong and the man who counts is always overdrawn is the man who spends more money than he makes and will finally have no bank account.

RUN THEM OUT.

We can't hold our peace any longer. There should be, there must be some cleaning up in this town. We mean that besides other evident evils that are apparent in this town, there is one in particular that is an abomination to Sodom and Gomorrah; namely the running loose and promiscuously about the streets, of dirty, disreputable outcasts. In the main these are negro wenches. These characterless daughters of dusky Ham are a menace, a reproach to a decent and civilized community. They are the cause of a score of trifling negro bucks lounging around the town doing nothing and who perhaps exist by reason of the work of thieving hands. They are the cause of some low-down, pusillanimous white men acting worse than dogs. They will be the cause of innocent boys of the town wrecking their characters and practicing that which will wreck and ruin. They are here. Nobody will dispute it. Ada has no use for them. Guthrie, Indianapolis or hell might be willing to put up with such "beasties", but Ada, never! They can be gotten rid of. Now why not? If the officers and the law can't save the town from such stinking cussedness, let the decent citizenship of the town put the stamp of condemnation on such rottenness and let the great common law of decency have sway.

GET READY FOR THE RALLY!

Remember, citizens of Ada, our town has not given a picnic, street fair, or anything of the kind, this summer, with the exception of a statehood celebration which was rather of a local nature. Some such entertainment of neighbors is expected of any town, indeed is proper. They've been giving blow-outs all around us, and Ada hasn't given anything. Now, let us make the Democratic rally next Monday such a big thing as to fully compensate for the shortcomings of the summer. Early Monday morning decorate your windows and awnings. Later get out and mingle with the folks, shake everybody's hand, you see and SMILE—even into the midnight hour. There will be distinguished visitors here from all over the new state; there will be an immense attendance from all over the Sixteenth district—altogether, doubtless the biggest crowd Ada has had this year. It's your duty as a good citizen to make every visitor glad he came.

GOOD ROADS.

The citizens of Ada are urged to meet the farmers at the tabernacle Monday morning to do road business. The roads must be improved and bridges have to be built and repaired. In the justifiable mad rush for water the Ada business citizens will not forget the farmers. Let all the citizens meet at the tabernacle Monday morning for business.

A dam! A dam!! is the cry
"Me, no likky heap mean republican."
Poor Lo.

C. C. Threadgill and family of Goldfield, Nebraska came in today. They will visit Mr. Threadgill's brother at Center.

The Democrats will be here Monday. Give them the glad hand, for when you treat a stranger good, you are building your town.

There is Democracy in the atmosphere. The rally Monday night and Bob Taylor, the Tennessee Democratic wheel-horse, Tuesday night.

The Republicans, of this the 4th Congressional District, are anxious to nominate an Indian for Congress. A pretty clever trick if such a thing as a republican Indian can be found.

Do You Need Shoes?

CHAPMAN
The Shoe Man.

PUSH---DON'T KNOCK.

Upon the door I saw a sign:
I cried, "A motto! And it's mine!"
A wiser thing I never saw—
No Median or Persian law
Should be more rigidly enforced
Than this, from verbiage divorced:
Its logic's firm as any rock—
"Push---don't knock!"

'Twas simply meant to guide the hand
Of those who wished to sit or stand,
Within the unassuming door
This weight of sermony that bore.
'Twas never meant to teach or preach,
But just to place in easy reach
The ear of him who dealt in stock—
"Push---don't knock!"

But what a guide for life was that—
Strong, philosophical and pat;
How safe a craft for you and me
While cruising on life's restless sea;
Push, always push, with goal in view;
Don't knock—avoid the hammer crew,
This rule will save you many a shock—
"Push---don't knock."

When on that door I see the sign,
I say, "Great motto, you are mine!"
No stronger sermon ever fell
From human lips; no sage could tell
The bothead youth more nearly how
To point away his vessel's prow:
There are no wiser words in stock—
"Push---don't knock!"

—Fraternal News.

This quill pusher has heard Bob Taylor who is to lecture here Tuesday night, and he advises everybody in Ada to hear him. Your tickle box will be heaped up.

A NATURAL water basin has been discovered one and a half miles east of town. A dam that will hold in check millions of gallons of water, about 40 acres in fact, can be built at a small cost. Get busy, people, let's begin to sling dirt.

Exports from Gulf Ports.

The growing importance of the gulf ports for the shipment of western produce is gathered from a statement recently issued by the department of commerce. For the 10 months ending with April Galveston, New Orleans and Mobile exported \$30,000,000 worth of breadstuffs, against \$33,000,000 for all the Chesapeake ports, including Baltimore, and \$37,000,000 worth for New York. New York's lead is readily accounted for by the advantage it has in the cheap water route through the lakes and the Erie canal, which also give her not a little wheat from the Canadian fields. With a deep waterway from Chicago to the mouth of the Mississippi New Orleans, which contributes \$16,500,000 to the above total of \$30,000,000 for the three gulf ports, would in all likelihood excel New York in the shipments of breadstuffs and other western produce.

GERMAN GIRLS' SCHOOLING

No Colleges for Them in Their Own Country, But They Have a "Pension."

The German girl leaves school at about 15 years of age, by which time she has learned to sew, mend, and supposedly to speak English and French. She has not learned higher mathematics, says Modern Women, but she has learned the small things which fit a girl for a housewife or companion, and that, in Germany, is woman's only sphere.

However much we American girls may enjoy our colleges we dare not pity the German girls, for they have something which takes their place and of which we can have no conception until we reside in Germany a few months.

Did you ever hear of a pension? It is one of the most enjoyable things which exists. Certain influential ladies, mostly widows or maiden aunts, make known that they are willing to take a limited number of young ladies into their family.

We went to Hanover, two of us girls, with a horror and dread of a boarding school, as we heard a pension described. We found ourselves in a family of eight girls, all from the very best class of Germans, and all placed under Frau von H—'s care for a year or more.

None of the girls had any special object in life; a few wanted to learn how to keep house, a few indulged in our town's music lesson per week, but most of them came, as is the German custom, for the sake of becoming polished and being escorted to concerts, theaters, balls, receptions, student Kneples, etc., opportunities not afforded in smaller cities, and even not in many cities that are larger than Hanover.

Consequently our chaperon accepted invitations for her girls, parties were given and the great intimate family spent a year full of pleasure.

HORSE AND HORSELESS.

The Animal and the Auto Each Do the Other an Occasional Good Turn.

A farmer in Cadiz, Ind., recently jacked up his automobile to serve in lieu of a broken engine in the shelling of corn and cutting of fodder for his five stock and horses. The latter partook of their share of the feed without showing any hard feeling toward their deadly rival, the auto.

One man who has been touring the country says that the horses have accepted the automobile more gracefully than the farmers have.

He tells the story of an automobilist who met an elderly couple driving a skittish horse which decidedly objected to passing the unknown vehicle. The driver of the car stopped to offer his aid, but the man declined it with the remark:

"If you'll lend my old woman by, I guess the horse and I can make it all right."

Another horse and horseless yarn comes from a man in Oregon. He says:

"When I bought my car, I marveled that the company could sell it for \$1,550. Now I marvel that they could sell it at any price. Marvelling is the cheapest part of the proposition. I find."

"My particular marvel out in my barn reminds me of the man who built so much stone fence in one day that it took him two days to walk back to where he began. My car will take me sometimes so far from home in two hours that it takes the rest of the day for me to drive home with a providentially hired horse."

FACTS ABOUT SAFETY PIN.

Obliging Clerk Imparts Interesting Information Concerning the Article.

"One dozen safety pins. Twelve cents. Thank you, madam," said the clerk. "Your change will be here in one moment."

She was very pretty. He was young. A conversation sprang up.

"There is a strange story connected with the safety pin," the clerk said. "An Englishman invented this pin some 30 or 40 years ago. For this admirable invention he was highly honored. Petes and applause were showered upon him. If I am not mistaken, the man was even knighted."

"And about three years ago, in excavating in Pompeii, they came upon—what do you think? A perfect safety pin. Hundreds of perfect bronze safety pins. The Englishman's invention wasn't new at all. It was 2,000 years old."

"The man had been feted and honored all his life, he had even been knighted, for an invention that he didn't invent."

MIKADO'S SELF DENIAL.

Refused Heat in Palace While His Soldiers Were Freezing in the Field.

In the bitter cold of last winter—1904-1905—the mikado not content with the fullest official reports, sent his grand master to look into the conditions at the front, to ascertain by visiting every camp and outpost, how the soldiers were faring. When Count Hilkata returned with his harrowing tale of frightful suffering caused by the cold, the emperor was broken-hearted, says World's Work. Nothing more could be done—the Manchurian winter must drag its icy season through—but the emperor would not take his ease while his men were freezing, and the order to discontinue all heating of the palace till the war should be over showed that his sympathy was with them day by day.

NUMBER 121

POODLES OF WATER WILL BE FURNISHED FOR ADA

As was stated in Friday's News, quite a large party, composed of local business men and cement people, went out east a mile and a quarter and investigated the matter of building a reservoir. Every man in the party is elated over the prospects offered by this site. The topography at this place could hardly be more favorable to the project. Mr. Geo. Truitt stated to a News reporter today: "Nature has paved the way. At a point due east of the south half of Ada, just 1 1/4 miles, a dam 700 feet long can be built

that will insure a basin of water covering nearly 40 acres and averaging in depth between 12 and 17 feet. There is a solid rock base on which to build the dam. A section of the dam 30 feet high, 30 feet wide at the base and 125 feet long in front of the main channel would serve as an ample wasteway and would also resist the greatest volume of water. The remainder of the dam, 575 feet, could be built of Rock and earth, which is available in inexhaustible quantities right on the spot. "The water supply would be guaranteed by three large riverlets coming in from watersheds several thousand acres in extent."

"Where is this site?" "It is on the Grayson allotment, one of our most reputable and prominent Indian citizens. The title can be easily secured at a nominal cost, for the land is not tillable." A committee of business men, together with the cement people, was out on Sandy today in search of a better proposition at the hands of old Nature. The adventure is a mammoth

one and no mistake will be made in the selection of a water site. Every imaginable and likely water supply scheme will be given a thorough test. By Monday a definite understanding will be reached relative to the action to be followed by the citizens and the municipality. The general opinion is that the council will take the matter up and back it with city bonds. The cement people mean business. The citizens of Ada mean business, too. We pray that there will be no opposition, not even from those who make it a business to knock.

A GOOD DOCTOR

is a broad minded man, and one who has the interest of his patient at heart and does all in his power to care for his patient. The best doctors' skill and ability is of little consequence if his prescriptions are filled by incompetent druggists and with impure drugs. Our prescription department is the largest and most complete of any in the city and is composed of the purest drugs and chemicals and compounded by experienced druggists. Consequently the best results are obtained. We can fill any prescription written by any physician in the city. You do not need to take them elsewhere because they are written on other druggists' stationery.

G. M. RAMSEY, Druggist.
(Successor to Clark Drug Co.)

FIGHTING BILL BRYAN SAYS HE WILL FIGHT IN ILLINOIS

St. Louis, Aug. 10.—Homer Bassford, staff correspondent of the St. Louis Republic, cables his paper from Paris tonight as follows:

William J. Bryan has thrown down the gauntlet to the opposition in Illinois and says he will hurry home to fight Democracy's battle and that he may be depended upon to enter quickly into the contest in Illinois with all the energy with which he is possessed.

"It is immaterial to me whether Illinois endorses me or not," said Mr. Bryan yesterday. "but it is very important that the Democracy of that state shall repudiate Sullivan and highway-men methods."

"The Democracy of Illinois cannot hope to have the confidence of the people while men like Hopkins and Sullivan are in control of the Democratic party."

"The party must, first of all, purge itself of such leadership before it can enter courageously upon a campaign."

"This was Mr. Bryan's ultimatum delivered last night just as I was leaving him to come to Paris. Mr. and Mrs. Bryan and their party are expected to arrive here tonight. They stopped for a day's rest in Lomond Castle, Switzerland, prior to taking up the last ten days of their long trip."

Mr. Bryan was very angry and said that the Democracy of the country should this year make its fight against leadership dominated by in popular influences or it will have the same fight to make over again during the presidential campaign. He says he will personally fight along these lines even though he is not considered for the presidency and will devote all his energies toward the success of such a campaign.

Trains Running.
The first through train on the Fresno since the big rain Tuesday night was the "Meteor" this morning. It was crowded with passengers.

M. L. Walsh will be seen at the White Swan house. Phone 17.

THE CITY COUNCIL MET ON WEDNESDAY NIGHT

The city council met on the evening of the 8th inst. Those present were Timbaleke, Warren, Barton, McFarland, Nettles, Lee, Bills, Snugg and Ebey. A motion prevailed that the M. K. & T. R. R. be allowed to use the city water at 10 cents per thousand gallons. It was unanimously agreed that resolutions be presented to the proper Katy officials praying the construction of a crossing on creek road at 9th street. There were several non important matters considered. Bills to the following amounts were allowed: Street fund \$144.40, general fund, \$335.94, water fund, \$63.82, pound fund, \$21.

A Compliment.
The Western X-Ray and Coal Co. wrote Dr. Brown this "I am in receipt of your valued favor of the 5th inst. and also acknowledge receipt of the Souvenir which I am it took enough to say is the most elaborate affair of its kind for a town anywhere near the size of Ada and you might well be proud of it." Thanks, warmly.

The End of the World
of troubles that robbed E. H. Wolfe, of Bear Grove, Iowa, of all usefulness came when he began taking electric baths. He writes: "Two years ago kidney trouble caused me great suffering, which I never would have survived had I not taken Electric Baths. They also cured me of general debility. Sure cure for all stomach, liver and kidney complaints, blood disorders, headache, dizziness and a thousand bodily decline. Price 50 cents. Guaranteed by G. M. Ramsey and F. Z. Holey's drug store."

Found Dead on the Streets.
A young man was found dead on the streets of Baton Rouge, supposed to have died from a congestive chill, which could have been prevented. The family use of Dr. Mandenhall's Cold and Fever Cure. Sold by G. M. Ramsey, druggist.

"Be Ye Reconciled."
The few people at the service Monday night, on account of the storm, did not mar the message in the least. Bro. Oliver took his text from 11 Cor., 12th verse. The subject was "Reconciliation." He said that a reconciliation between man and God can be effected at any time by man putting away his rebellious armor. Bro. Oliver asked about the spirit that prevailed in the homes. He deplored the fact that there were so many homes in Ada without Christianity. Mr. Oliver said there were too many icy hands being extended to the new converts and lost souls. "Stick out warm hands to the unsaved ones and say, 'Be ye reconciled to God.' Character is essential to Christianity. Men of character are the ones closest to God. Let me die the death of the pauper with character rather than the richest man without character and lost. I beseech ye to lay down your rebellious armor and be reconciled to God." Mr. Oliver, addressing his remarks to the Christians, said that they were all cables from heaven. "Spread ye, therefore, the glad news, even unto the remotest parts of the earth, that a Savior has died that men may become reconciled to God. There is generous pardon for all sinners tonight. Will you put your name to it?"

University Support.
The University is supported out of the land taxes of the territory. The Legislature of 1905 set apart the sum of \$50,000 a year for two years to provide a general maintenance fund to the University. In addition to this, section 3 in each township in what is known as the Cherokee Outlet, and in the Kiowa, Comanche and Wichita counties, was set apart in 1901, has been reserved for university, normal school and agricultural purposes. The net is so reserved bring to the University at or sent about \$9,000 a year.

White Swans the White Swan can Phone 17. 95-17

Hearst Makes Fight.

Chicago, Aug. 10.—William Randolph Hearst, through his papers here, today declared savage war upon the Democratic ticket, and announced that the candidates are owned body and soul and breeches by National Committee-man Roger C. Sullivan and William Loewler. The candidates are referred to as "creatures born of the infancy of gas and tunnel" politics. This action means a third ticket in the field and the defeat of the Democratic party at the polls in November. After the Hearst faction abided by the decision of the convention yesterday and made no effort to bolt, the Sullivan-Loewler politicians thought all was serene in the county Democratic ranks, but they have changed their minds today and realize now that whatever hopes they entertained for victory in November are shattered unless peace can be patched up in some manner. But the Hearst followers declare they will entertain no overtures toward peace and will fight to the bitter end.

Remember the Hour; 9:30 O'clock.

Tomorrow is the last day of the revival. In order to give all the time possible to the meeting and not to rush through their lessons, the Sabbath schools of the city will begin promptly at 9:30. The Union meeting will begin promptly at 10:00. Let everybody be prompt.

Notice, Ladies.

The committee on program and arrangements for the big Democratic Rally of the county Monday instruct that the Ladies have an especial invitation to attend. Comfortable seats will be provided.

Otis B. Weaver, Sec.

Hot weather saps the vital energy and makes the hardest workers feel lazy. To maintain strength and energy use Trickle Ash Bitters.

Rob Taylor, of Tennessee, will lecture in the tabernacle Tuesday night.

OVERDRAFTS

It is becoming well known by business men that overdrafts, large or small, are not approved by the comptroller of the currency. The large central banks allow overdrafts only in a very small amount and this, it matters not how small, is not approved by the comptroller. This unbusinesslike habit of overdrafts grew out of vanishing on moving products, such as cotton, grain and fat stock. The overdraft system is wrong and the man who counts is always overdrawn is the man who spends more money than he makes and will finally have no bank account.

HEALTH AND VITALITY

1. The organization is a non-profit corporation organized under the laws of the State of New York, and is not a charitable organization as defined in Section 501(c)(3) of the Internal Revenue Code.

RUN THEM OUT.

We can't hold our peace any longer. There should be, there must be some cleaning up in this town. We mean that besides other evident evils that are apparent in this town, there is one in particular that is an abomination to Sodom and Gomorrah: namely the running loose and promiscuously about the streets, of dirty, disreputable outcasts.

In the main these are negro wenches. These characterless daughters of dusky Ham are a menace, a reproach to a decent and civilized community. They are the cause of a score of trifling negro bucks lounging around the town doing nothing and who perhaps exist by reason of the work of thriving hands. They are the cause of some low-down, pusillanimous white men acting worse than dogs. They will be the cause of innocent boys of the town wrecking their characters and practicing that which will wreck and ruin.

They are here. Nobody will dispute it. Ada has no use for them. Guthrie, Indianapolis or hell might be willing to put up with such "beasties", but Ada, never! They can be gotten rid of. Now why not? If the officers and the law can't save the town from such stinking cussedness, let the decent citizenship of the town put the stamp of condemnation on such rottenness and let the great common law of decency have sway.

GET READY FOR THE RALLY!

Remember, citizens of Ada, our town has not given a picnic, street fair, or anything of the kind, this summer, with the exception of a statehood celebration which was rather of a local nature. Some such entertainment of neighbors is expected of any town, indeed is proper. They've been giving blow-outs all around us, and Ada hasn't given anything.

Now, let us make the Democratic rally next Monday such a big thing as to fully compensate for the shortcomings of the summer. Early Monday morning decorate your windows and awnings. Later get out and mingle with the folks, shake everybody's hand you see and SMILE—even into the midnight hour. There will be distinguished visitors here from all over the new state; there will be an immense attendance from all over the Sixteenth district—altogether, doubtless the biggest crowd Ada has had this year. It's your duty as a good citizen to make every visitor glad he came.

GOOD ROADS.

The citizens of Ada are urged to meet the farmers at the tabernacle Monday morning to do road business. The roads must be improved and bridges have to be built and repaired. In the justifiable mad rush for water the Ada business citizens will not forget the farmers. Let all the citizens meet at the tabernacle Monday morning for business.

A dam! A dam!! is the cry

"Me no likey heap mean republican." Poor Lo.

C. C. Threadgill and family of Goldfield, Nebraska came in today. They will visit Mr. Threadgill's brother at Center.

The Democrats will be here Monday. Give them the glad hand, for when you treat a stranger good, you are building your town.

There is Democracy in the atmosphere. The rally Monday night and Bob Taylor, the Tennessee Democratic wheel-horse, Tuesday night.

The Republicans, of this 4th Congressional District, are anxious to nominate an Indian for Congress. A pretty clever trick if such a thing as a republican Indian can be found.

Do You Need Shoes?

If you want a pair of Shoes that combine style, elegance and individuality with the best leather and excellent workman hip, why not try ours? You will be satisfied with your selection. The most correct styles for men, women and children.

CHAPMAN
The Shoe Man.

PUSH---DON'T KNOCK.

Upon the door I saw a sign: I read, "A motto! And it's mine!" A wiser thing I never saw— No Median or Persian law Should be more rigidly enforced Than this, from verbiage divorced; Its logic's firm as any rock—"Push---don't knock!"

"Twas simply meant to guide the hand Of those who wished to sit or stand, within the unassuming door. This weight of sermony that bore. 'Twas never meant to teach or preach. But just to place in easy reach The ear of him who dealt in stock—"Push---don't knock!"

But what a guide for life was that— Strong, philosophical and pat; How safe a craft for you and me While cruising on life's restless sea; Push, always push, with goal in view; Don't knock—avoid the hammer crew; This rule will save you many a shock—"Push---don't knock!"

When on that door I see the sign, I say, "Great motto, you are mine!" No stronger sermon ever fell From human lips; no sage could tell The hothead youth more nearly how To point away his vessel's prow; There are no wiser words in stock—"Push---don't knock!"

—Fraternal News.

This quill pusher has heard Bob Taylor who is to lecture here Tuesday night, and he advises everybody in Ada to hear him. Your tickle box will be heaped up.

A NATURAL water basin has been discovered one and a half miles east of town. A dam that will hold in check millions of gallons of water, about 40 acres in fact, can be built at a small cost. Get busy, people, let's begin to sling dirt.

Exports from Gulf Ports.

The growing importance of the gulf ports for the shipment of western produce is gathered from a statement recently issued by the department of commerce. For the 10 months ending with April Galveston, New Orleans and Mobile exported \$30,000,000 worth of breadstuffs, against \$33,000,000 worth for all the Chesapeake ports, including Baltimore, and \$37,000,000 worth for New York. New York's lead is readily accounted for by the advantage it has in the cheap water route through the lakes and the Erie canal, which also give her not a little wheat from the Canadian fields. With a deep waterway from Chicago to the mouth of the Mississippi New Orleans, which contributes \$16,500,000 to the above total of \$30,000,000 for the three gulf ports, would in all likelihood excel New York in the shipments of breadstuffs and other western produce.

GERMAN GIRLS' SCHOOLING.

No Colleges for Them in Their Own Country, But They Have a "Tension."

The German girl leaves school at about 15 years of age, by which time she has learned to sew, mend, and supposedly to speak English and French. She has not learned higher mathematics, says Modern Women, but she has learned the small things which fit a girl for a housewife or companion, and that, in Germany, is woman's only sphere.

However much we American girls may enjoy our colleges we dare not pity the German girls, for they have something which takes their place and of which we can have no conception until we reside in Germany a few months.

Did you ever hear of a pension? It is one of the most enjoyable things which exists. Certain influential ladies, mostly widows or maiden aunts, make known that they are willing to take a limited number of young ladies into their family.

We went to Hanover, two of us girls, with a horror and dread of a boarding school, as we heard a pension described. We found ourselves in a family of eight girls, all from the very best class of Germans, and all placed under Frau von H—'s care for a year or more.

None of the girls had any special object in life; a few wanted to learn how to keep house, a few indulged in an hour's music lesson per week, but most of them came, as is the German custom, for the sake of becoming polished and being escorted to concerts, theaters, balls, receptions, student Kneipes, etc., opportunities not afforded in smaller cities, and even not in many cities that are larger than Hanover.

Consequently our chaperon accepted invitations for her girls, parties were given and the great intimate family spent a year full of pleasure.

HORSE AND HORSELESS.

The Animal and the Auto Each Do the Other an Occasional Good Turn.

A farmer in Cadiz, Ind., recently jacked up his automobile to serve in lieu of a broken engine in the shelling of corn and cutting of fodder for his live stock and horses. The latter partook of their share of the feed without showing any hard feeling toward their deadly rival, the auto.

One man who has been touring the country says that the horses have accepted the automobile more gracefully than the farmers have.

He tells the story of an automobilist who met an elderly couple driving a skittish horse which decidedly objected to passing the unknown vehicle. The driver of the car stopped to offer his aid, but the man declined it with the remark:

"If you'll lead my old woman by, I guess the horse and I can make it all right."

Another horse and horseless yarn comes from a man in Oregon. He says:

"When I bought my car, I marveled that the company could sell it for \$1,550. Now I marvel that they could sell it at any price. Marveling is the cheapest part of the proposition. I find.

"My particular marvel out in my barn reminds me of the man who built so much stone fence in one day that it took him two days to walk back to where he began. My car will take me sometimes so far from home in two hours that it takes the rest of the day for me to drive home with a providentially hired horse.

FACTS ABOUT SAFETY PIN.

Obliging Clerk Imparts Interesting Information Concerning the Article.

"One dozen safety pins. Twelve cents. Thank you, madam," said the clerk. "Your change will be here in one moment."

She was very pretty. He was young. A conversation sprang up.

"There is a strange story connected with the safety pin," the clerk said. "An Englishman invented this pin some 30 or 40 years ago. For this admirable invention he was highly honored. Petes and applause were showered upon him. If I am not mistaken, the man was even knighted.

"And about three years ago, in excavating in Pompeii, they came upon—what do you think? A perfect safety pin. Hundreds of perfect bronze safety pins. The Englishman's invention wasn't new at all. It was 2,000 years old.

"The man had been feted and honored all his life, he had even been knighted, for an invention that he didn't invent."

MIKADO'S SELF DENIAL.

Refused Heat in Palace While His Soldiers Were Freezing in the Field.

In the bitter cold of last winter—1904-1905—the mikado not content with the fullest official reports, sent his grand master to look into the conditions at the front, to ascertain by visiting every camp and outpost, how the soldiers were faring. When Count Mikata returned with his harrowing tale of frightful suffering caused by the cold, the emperor was broken-hearted, says World's Work. Nothing more could be done—the Manchurian winter must drag its icy season through—but the emperor would not take his ease while his men were freezing, and the order to discontinue all heating of the palace (ill the war should be over showed that his sympathy was with them day by day.

The Democracy of the 16th District will rally in Ada

MONDAY, AUGUST 13

The leading orators and United States Senatorial candidates from Oklahoma will address the throng. Hon. Jack Beal of Dallas, Texas, the brilliant Texas Congressman, will be present. A large number of State and Congressional candidates will be the District's guests that day, and will be proud to meet the people. The Democrats of Ada will give a barbecue supper to all the visitors. Between the shoutings and oratory and the feasting there will be music by two of the leading brass bands of the Indian Territory.

The splendid tabernacle constructed by the citizens of Ada, where the exercises will occur, has comfortable seating capacity of nearly 3,000 people.

Monday will be the real opening of the county campaign. Scores upon scores of candidates and prospective candidates for county offices will be on hand, and vigilant. The presence of the Democracy of the 16th district is demanded.

All the Democrats and other good citizens who are seeking after the political truth, or who attach some value to the reliable news capacity of a paper are cordially invited, when in town, to visit the Ada Daily and Weekly News office and plant, situated on the corner of 12th and Broadway, just across from the big tabernacle.
